

Basic users:

- As I user who works from home, I want to get to nearby pharmacy to get drugs instead of going to clinics or hospitals.
- As a user, I want to search for pharmacies in different areas, so that I could make recommendations to my parents.

Super users:

- As a user, I want to do a simple diagnosis on my symptoms before visiting the pharmacy, so that I could have a more fruitful discussion with the pharmacist.
- As a user, I want to know some background info of the pharmacist, so that I could get some recommendations over the counter.
- As a user, I want to search for some medications for my conditions, so that I could understand more about drugs that might be suitable for me.
- As a user, I want to search for the side effects of drugs, so that I could have a peace of mind when pharmacists prescribe the medications.
